Tampa, FL 33611

**I need your help to save our
Great Nation**

- Improve our Economy
- Create Job Growth
- Balance budget
- Reduce Government spending
- Reduce National Debt
- Fairer and Simpler Tax System

- Stronger National Security
- Secure our borders
- Invest in and Support the Military
- Education choice back in the hands of parents
- Expand use of domestic energy sources

Economy

- ⇒ Small business accounts for 2/3rds of all US Jobs
- ⇒ Encourage strong Job growth
- ⇒ Oppose “Card Check” for union votes
- ⇒ Simplify tax laws and insure fairness
- ⇒ Eliminate job opportunities for illegal Immigrants
- ⇒ Increase effectiveness of E-Verify

Government Accountability

- ⇒ Balance the budget
- ⇒ Reduce government growth
- ⇒ Reduce government spending
- ⇒ Pay down debt
- ⇒ Federal Sunshine law

National Security

- ⇒ Stop mirandizing terrorists
- ⇒ Defend our borders
- ⇒ Invest in and support our military
- ⇒ Protect hard earned veteran benefits
- ⇒ Defend Second Amendment Rights

We are experiencing a striking recession and alarming unemployment. Our government has responded by taking control of the domestic auto industry and bailing out businesses deemed “ too large to fail”, Government spending is out of control. I have become especially alarmed with the speed that the 111th congress was pushing harmful legislation to reform healthcare. The people spoke and the legislation did not pass.

“Provide for the Common defense”

(preamble US

ECONOMY

Our weak economy is the number one issue facing the United States. We must make the right decisions to stop the downward spiral now, not 10 years from now.

I will propose legislation to eliminate all payroll taxes for 2 years and eliminate all capital gains taxes for 2 years. This will encourage investment into small business and encourage strong job growth now.

Americans don’t want more unemployment benefits, they want jobs. We must stop illegal immigrants from taking job opportunities from legal residents.

A secret ballot is a sacred right for Americans. An American’s vote for or against unionization should not be made under coercion allowed by “Card-Check”.

GOVERNMENT ACCOUNTABILITY

Government growth and spending is out of control. The federal deficit and debt grow each year. We are spending and creating debt at a rate we have never seen before.

We must stop this out of control spending. I will work hard at reducing the size of our government, balancing our budget, and paying down the debt.

I am also very concerned with the lack of transparency. I will propose a federal ‘Sunshine law’ similar to Florida’s.

Paid for by the Tony Buntyn for Congress Committee

NATIONAL SECURITY

Providing for the common defense is one of the most basic responsibilities of the Federal Government. We are at war with an unconventional terrorist enemy that is intent on killing innocent Americans. We must never forget the unprovoked attacks of 9/11/2001. I will fully support the continued investment in our military and insure that they have the best equipment to execute their mission.

We must secure our borders, our sovereignty is at stake. This is not an immigration issue, it is a national security issue. I have deployed troops to the southern border and saw first-hand what our challenges are.

Our Veterans pledged their lives for our freedom. We must honor that pledge and sacrifice by fully providing and funding the benefits they were promised. No more access fees tacked onto
